COMPANY OVERVIEW

White Raven Security is a Woman-Owned Small Business based in North Carolina. With decades of technical and security experience, our team brings a full breadth of technical knowledge ranging from cyber compliance and governance to system assessment, gap analysis, and design of facility-related control systems. We provide our clients with a trusted resource to help them meet all of their cyber and information security needs.

DIFFERENTIATORS

- Provide businesses with cybersecurity and technology guidance and expertise backed by over 40 years of experience
- Guide clients in establishing effective security programs that are relevant to their business needs
- Assess organization systems and policies against standard security baselines
- Guide clients in assessing and mitigating cyber risk
- In-depth knowledge and experience preparing clients for CMMC, implementing NIST SP 800-171, and ensuring DFARS 252.204-7012 compliance
- Knowledge and first-hand experience implementing UFC 4-010-06
- Leverage technical expertise in cloud architecture, zero trust, and technology implementation
- Conduct highly effective cybersecurity training for businesses

PAST PERFORMANCE

- Numerous NIST and CMMC Security Compliance Assessment and Gap Analyses, Confidential Clients ranging in size from 4 to 700+ employees
- Cybersecurity Training for Small Businesses, Women's Business Center of North Carolina
- NIST SP 800-171 Compliance Assessment, Confidential Third-Party Security Vendor
- Building Design Security Assessment, Confidential Client
