

EMERGENT ESTHETICS OCTOBER 2023 NEWSLETTER

Fall is here! The weather is changing and it is a great time to prioritize self care and your skin. As the air becomes dryer, you may notice the impact on your skin such as dryness and irritation.

I am here to remind you that a great moisturizer is key during these months - and don't slack on the SPF! UV rays do not go away in the Fall, and it is important to protect your skin year-round.

It's also the season of extra makeup and special effects! If you plan to celebrate, remember to remove the makeup thoroughly and cleanse your face before turning in for the night!

Don't miss the FALLTREATMENT I put together for my clients - a seasonal facial you are sure to love! Details below... I hope to see you at Emergent Esthetics for this fantastic fall treat!!

Let's Talk Pumpkins!

Pumpkins are one of the images that come to mind during this season - and as an esthetician I can tell you that Pumpkin has MANY benefits for your skin!

- Reduces pigmentation
- Reduces signs of aging
- Minimizes pores
- Reduces uneven skin texture
- Hydrates and plumps

Introducing the Pumpkin Spice Facial!

This 45 minute treatment will provide a gentle exfoliation on the skin with pumpkin enzymes while deepening hydration with natural botanicals and antioxidants.
