

## About Us:

First, thank you for allowing us to submit a proposal to you. Our company name Aspie Media represents several things. Being someone who has lived with Asperger's his entire life our Founder Steven Wilson saw an opportunity to create a business for himself where he can express his creativity and use the detail focus that comes with having Asperger's. The name Aspie means someone who is living with Asperger's syndrome, a mild form of Autism. Our mindset is that autism is an ability and not a disability, people with autism see the world differently, because of this, Aspie Media was born. Aspie Media connects the creative side of videography and photography to the detail and focus of the Asperger's mind. All of us at Aspie Media have a passion for creating. We believe we can help our communities and the world achieve the next level of inspirational visuals that can capture memories, give the best representation and/or help one successfully grow.

## Our Process: What to expect working with us.

Our process aims to first understand what the viewer needs to hear/see in order to want to act. It's one thing to communicate what we think is important, but it is really the viewer that matters. We then pair this understanding with our artistic talent in communication and video to create a powerful video that makes a difference.

1. Kick-Off Meeting  
90 Minute Meeting to understand your business, your goals, and to organize the initial details of the project.
2. Research & Creative  
We first start by asking questions. Lots of them.
3. Pre-Production  
We take our creative brief and create a logistical game plan to implement it. We map out the necessary equipment, shooting days, editing days, and put down a schedule, and get moving.
4. Production  
Lights, camera, action; this is the fun part. We come out to you with our cameras, lights, audio equipment, drones, and more to capture all the puzzle pieces we need to piece together the perfect story as mapped out in our creative brief. We make sure the day goes smooth by having an agenda and communicating everything well in advance.
5. Post-Production / Editing  
This is where we really shine. After getting the shots we cut them up and bring it all together. When music, graphics, animation, and live video all come together it's magical. In the end, we'll have an amazing video that's ready to hit the market.
6. Presentation & Revisions  
We present our work and work back and forth until its perfect.
7. Launch & Market  
We get you the final files and help you get them up onto all the channels you choose. As an option, we can sit down with you and help you game plan on how to get the most out of your investment. We lay out specific strategies for marketing and action items to make sure this video is seen and accomplishes the goals we set out to accomplish.

*\* Timelines varies from project to project.*

**Our Proposal:**

(Add Date) (this proposal expires in 10 days from date assigned)

**For:** (Add Person/ Company Name)

**Point of Contact:**

(Add Persons Name and Title)

(Full Address)

(Phone Number)

**Proposed Cost:** (Add Type of Rate) Per Video/Photo Shoot
