

Bronco Environmental, Ltd.

Capabilities Statement

Bronco manages our clients' environmental concerns with high quality, long-term compliance and engineering solutions.

Bronco Environmental, Ltd. understands the needs of our clients and work as a part of our clients' environmental teams to maintain compliance and with air, water, and waste regulations. We work towards economically feasible and effective solutions to protect our environmental resources.

Bronco specializes in environmental consulting, engineering, and project management services and we strive to work as an extension of each of our clients' environmental teams.

INDUSTRIES SERVED

- ◆ Aggregates and Mining
- ◆ Oil and Gas
- ◆ Commercial and Retail
- ◆ Real Estate Development
- ◆ Municipalities
- ◆ Chemical Storage, and Processing
- ◆ Manufacturing
- ◆ Transportation
- ◆ Construction

- ✓ Experienced in working with federal, state, and local regulators
- ✓ Professional Engineer (Colorado, New Mexico, Texas, Utah, and Louisiana)
- ✓ Professional Geologist (Florida, Mississippi, and Wyoming)
- ✓ Recognized Environmental Professionals (Colorado Division of Labor and Employment, Division of Oil and Public Safety)
- ✓ CDOT Disadvantaged Business Enterprise (DBE) and Emerging Small Business (ESB)
- ✓ Avetta Safety Compliance and ISNetworld certified.
- ✓ EPA Method 9 Certified.

Bronco Environmental, Ltd.

Capabilities Statement

SERVICES

- ◆ Environmental site assessments: Phase I/II and Due Diligence Inspections.
- ◆ Environmental permitting for new construction, replacement projects, and facility modification.
- ◆ Water treatment system design and discharge permitting, Rule Authorizations, Underground Injection Control (UIC) General Permits, and publicly-owned treatment works discharge requirements.
- ◆ Contingency planning including but not limited to Spill Prevention, Control, and Countermeasures Plans, Facility Response Plans, Oil Spill Contingency Plans, and Spill Response Planning for Water Systems.
- ◆ Stormwater, spill flow and diffusion modeling, and planning distance calculations.
- ◆ Management and engineering design for capital improvement projects.
- ◆ Corrective Action Plans, Engineering Design and Operation Plans, Closure Plans, and Certification of Closure for Landfills.
- ◆ Asbestos Containing Materials Surveys and Abatement.
- ◆ Drainage and storm water permitting, planning, inspections, sampling, and inspections.
- ◆ Air permitting and Method 9 (certified).
- ◆ Waste characterization, profiling, management, and disposal coordination; RCRA solid, hazardous, and universal waste; hazardous, solid, and universal waste management plans and recycling plans.
- ◆ Risk and Vulnerability Assessments, and Process Safety Management.
- ◆ Chemical Inventories including SARA Tier II and TRI Chemical Reporting and Hazardous Materials Inventory Statements.
- ◆ Hazardous Materials Management Plans and Pollution Prevention Plans, waste profiling and disposal coordination.
- ◆ Storage tank management including Colorado Department of Labor and Employment, Division of Oil and Public Safety registered tank program (tank permitting and closure) and reimbursable tank fund (remediation sites).
- ◆ Groundwater monitoring, soil sampling, Site Assessment, and Remediation.
- ◆ Regulatory compliance assessment and compliance gap analysis.
- ◆ Established subcontractor relationships with wildlife biologists, structural and geotechnical engineering design firms water rights firms and hazardous materials response and disposal firms, aim modeling firms, digital imaging firms, and application developers.
