

THE SPA DRAGON

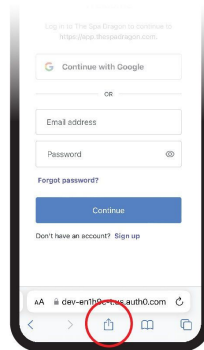

Quick Start

1

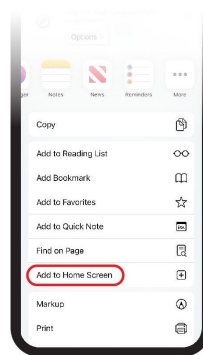

On your smartphone, go to: app.thepadragon.com and register.

2

From the browser, select "share" button.

3

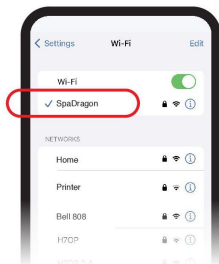

Select "Add to Home Screen" (from safari on iPhone) - Now you can access TheSpaDragon from the App Store

4

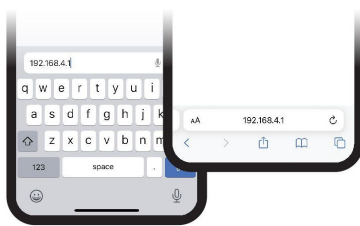

You will receive a code once you create your account, write the code down.

5

Go to your phone's WiFi settings and locate "TheSpaDragon." Connect to this network. Password: **MySpaDragon (case sensitive)**

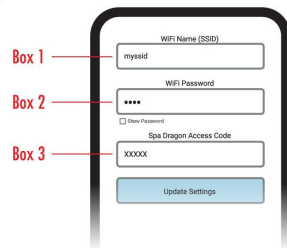

6

Type 192.168.4.1 into the address bar of your phone's browser and a window similar to the next picture will appear.

Note: Some phones may not connect with mobile data on, turn off if needed.

7

Box 1 — Select your home wifi (Box 1). Enter home wifi password (box 2). Enter Access code from step 2 (Box 3). Select update settings and device should count down 5-1 and connect, wifi unit will flash Green/Purple if successful. If not successful (red/purple) repeat step 6, 7.

8

Return to app.thepadragon.com and setup options. Recommended alert warning settings (May have to adjust depending on insulation type):
• With 24 hour circulation pump: 90°F • With 2 speed circulation pump: 60°F
