# About Project Five

Feeling comfortable speaking in front of a group, no matter the size, is a learned skill that has lifelong benefits.

Using the Project Five 5Ps, (Prepare, Practice, Pace, Position, Present) students are taught how to use their voice, engage an audience, communicate effectively for presentations or speeches, and to share their opinions, thoughts and ideas.

*\*After working in classrooms with thousands of students, this new and interactive online option is to help students across Canada and beyond with these skills!\**
