

Supplier Quality Audits

Caraballo Consulting focuses on understanding your needs and providing you with exceptional consulting resources. We have the right level of experience for the task at hand to ensure innovative and cost-effective consulting solutions.

Caraballo Consulting offers custom solutions for your company's audit needs. As part of our all-inclusive Audit Management Solutions, we offer Supplier Quality Audits. Our Subject Matter Experts (SMEs) can offer a comprehensive assessment of your specific audit needs as well as execute identified audits. Our Lead Auditor will develop a strategy to guide the audit process. Our strategy will use the most cost-effective methods by using geographical scheduling of the audits to maximize efficiency and cost savings. We use the right level of expertise for the tasks at hand to ensure the highest quality results.

Caraballo Consulting's Team of Auditors are considered (SMEs) in their respective fields and combine extensive training as well as best practices learned from working in state-of-the-art manufacturing plants with years of on-site experience. We bring excellence and expertise to the table while getting the job done in a timely and cost-effective manner.

Supplier Quality Audit Methodology

CCA's Edge

We will customize a solution based on your specific needs.

Excellence in consulting, ensuring the highest quality results.

Our auditors are:

- *Certified Quality Auditors (CQA) and Certified Biomedical Auditors (CBA) by the American Society of Quality (ASQ)*
- *Professional and committed*
- *Experienced with a short learning curve*

Our network of consultants covers the East, Central, and West Coasts, minimizing our clients' cost.
