

Supplier Quality Audits

Caraballo Consulting focuses on understanding your needs and providing you with exceptional consulting resources. We will find the right level of experience for the task at hand to ensure innovative and cost effective consulting solutions.

Caraballo Consulting offers custom solutions for your company's audit needs. As part of our all-inclusive Audit Management Solutions we offer Supplier Quality Audits. Our Subject Matter Experts (SMEs) can offer a comprehensive assessment of your specific audit needs as well as execute identified audits. We also offer an Audit Project Management (APM) feature. If the APM feature is the right choice for you, we will develop a strategy to manage your audits. Our strategy will use the most cost effective methods by using geographical scheduling of the audits in order to maximize efficiency and cost savings. We use the right level of expertise for the tasks at hand to ensure the highest quality results.

Caraballo Consulting's Team of Auditors are considered (SMEs) in their respective fields and combine extensive training as well as best practices learned from working in state of the art manufacturing plants with years of on-site experience. We bring excellence and experience to the table while getting the job done in a timely and cost effective manner.

Supplier Quality Audit Methodology

Pre-audit assessment	Analyze	Design	Perform
<ul style="list-style-type: none"> • Purpose • Type and scope • Audit requirements 	<ul style="list-style-type: none"> • Review supplier's past quality performance • Assign quality rating • Identify non-conformances • Investigate complaint history and compliance rate • Review FDA status (if applicable) • Define any required actions by supplier • Review applicable documentation 	<ul style="list-style-type: none"> • Audit Plan designed based on detailed analysis • Communicate Audit Plan to client and supplier • Review Audit Plan with supplier • Plan and confirm logistics of site visit 	<ul style="list-style-type: none"> • Execute Audit Plan • Complete Supplier Quality Audit adhering to pre-defined timeline and deliverables • Dedicated account manager will communicate with clients and monitor consultants' performance
