ABOUT US

Starlight Capital Partners (“Starlight”) leverages decades of middle-market private equity investing and related operational and strategic value creation experience of its principals to build high-performance, world class organizations.

Starlight acquires and builds businesses with superior customer value propositions and invests in talent, innovation, technology, and effective processes to help sustain that competitive advantage.

Starlight has an operational focus and collaborates with management teams, including by adding select operational advisors and tested professional resources to the team, to help drive organic and strategic growth and enhance profitability.

Starlight is a firm believer in operational and strategic value creation strategies rather than excessive leverage as the predominant drivers of performance.
