

DRUG TESTING CENTERS

If you've been requested to provide a drug test result to our office, we have listed several available programs that have locations in the area including but not limited to Allentown, Bethlehem, Easton and Quakertown. Please check with your health insurance to see if their services are covered under your plan *before* you book the appointment.

If you have another program you prefer to use, you are welcome to do so; however, you must use a: SAMHSA-certified laboratory, hair follicle drug test, minimum 7 panel.
