FREELANCE SUMMARY

Even with a relocation to Tampa, Florida from Pittsburgh, Pennsylvania, I have always had an infatuation with visual aesthetics & having the ability to transform everyday objects into priceless artifacts. How a simple photo or video can become a million-dollar commodity, how music may influence a person's personality, & the beauty of handcrafted jewelry. My appreciation for the small things in life has instilled in me a unique creative perspective. I specialize in crafting engaging visual and auditory experiences that blend artistic flair with practicality & affordability. Bringing concepts to life in designs that truly connect with people and the community.
