STEP 1 - PREP TIME

The approach emphasizes a personalized and collaborative process. We start with a pre-production meeting with all team members that will be part of the logistics to fully understand the restaurant's vision and desired outcome for the video.

STEP 2 - SETTING A DATE

Meeting in advance ensures the production plan captures the unique personality and energy of each establishment. We then coordinate closely with the restaurant's point of contact to schedule the shoot, ensuring a smooth and efficient process.
