Blue Chocolate Mission

Blue Chocolate's secondary mission is to create a fun, unique and quality product that not only surpasses the expectations of those who enjoy it, but that also captures the attention of everyone who can understand, appreciate and support those who struggle to keep their family thriving.

Our primary mission, our livelihood, comes from living out the following day to day:

To be an organization which upholds strong family values and glorifies God in as many ways possible (with as much chocolate as possible), and

To reach parents, whether single or married, and children, with grace and love. To help them find and receive needed assistance and resources so they may become spiritually healthy, thriving, and in a God-centered relationship with their families, no matter what that looks like.

To encourage and support those who can stand up against the negative and unhealthy ways of the world and claim their identity and value in Christ.

Blue Chocolate Fundraising

In keeping with the values set forth in the Blue Chocolate Mission, we are always encouraged and supportive of efforts made to help families when needed. If you know of a family that needs assistance or if you are part of an organization with the same values, we want to help.

Blue Chocolate is an organization that not only raises money through the sales of our products, but can also work with other organizations' fundraising efforts. [#FamiliesRForever](#)

Gourmet Apples & Unique Confections

Family Owned. Family Operated. Family Oriented.

www.BlueChocolateUS.com

About Blue Chocolate

Blue Chocolate is a family owned and operated company built to bring fun and creativity into the lives of chocolate lovers. Our main goal in creating these confectionary treats is to offer new and original flavor combinations unseen by most candy makers.

Blue Chocolate’s creators and owners are a husband and wife team whose ulterior motive is not only to entice the world with their indescribably delicious treats, but to also deliver a message to the masses about the need to raise awareness and provide assistance for families who struggle to stay strong and healthy and most importantly, to stay together.

Blue Chocolate has taken a lot of their inspiration from what this organization has affectionately termed “Blue Culture”. Blue Culture is an unseen revival of men and women who, against any odds, will do whatever they need to do to fight to keep their families in tact and together. They believe in family, marriage, and faithfulness. Determination and drive are what starts their journey; but sometimes there are financial roadblocks. Blue Chocolate wants to be a part of their journey; to help them finish their testimonies. *Certain proceeds from the purchase of Blue Chocolate products will be set aside and used to assist families who desire to overcome death, divorce, abandonment, addiction, and a myriad of other situations that, in today’s society, may have otherwise torn them apart.*
