WEDDING

WELCOME GUIDE

ABOUT ME

THE PHOTOGRAPHER

Hi! My name is Samantha and I am a wedding and portrait photographer. I have a passion for weddings, I enjoy capturing two people madly in love, but also, two families joining together, sharing joy and love for the bride and groom. Capturing emotions and relationships, as well as details that are important to you in a beautiful way. I am honored to document your love story; moments that will be shared with generations to come.

I would love to photograph you and the celebration it sparks with the people who matter most to you. We will give you enough direction to cultivate comfort and enough freedom to make room for magic and meaning.

ENGAGEMENT

PHOTO SESSIONS

Engagement sessions are a more informal and casually though festively dressed form of photo session. It is a perfect way to get some great shots for your Save The Date cards and also a great moment to remember your entire life. The main goal of this engagement session for me is to capture both of your personalities the way you are, as well as a genuine approach to the unique energy between you as a couple that makes your relationship spark!

Engagement shoots are mostly done at one location. We discuss the location together; ideally it is a place that you both love and have a connection with, such as your home town, your favorite park, the church you both attend or any other place that is dear to your heart.

The engagement session is where I usually meet the newly weds. It is a fun way to get to know each other before the wedding.

BRIDAL PORTRAIT

PHOTO SESSIONS

Bridal portraits are solo images of the bride in her wedding attire. These images are great to display at the wedding itself or to have in your home. It takes pressure off the bride to get these photos done before the big day; generally we try to coordinate the session with make-up and/or hair trials.

The bridal portraits usually takes place a month or two before the wedding day- close enough to the big day that your dress is altered and ready, and far enough away that if the gown gets dirty during the shoot you have enough time to clean it (but my general rule is to stay in clean areas!). Some venues allow you to take these photos on-site at a designated time or some brides decide to change it up and go uptown!

This is a great excuse to wear your dress twice while looking and feeling fabulous.

BOUDOIR

PHOTO SESSIONS

Boudoir by definition is a woman's bedroom or private room. We want to capture your beauty at your location or ours. You can be fully covered, in lingerie or completely naked. This session is completely for you, we do not share your images unless you give us permission to! We have special packages to include prints, photobooks and digital downloads of the hand edited images.

We know how hard it is to get in front of a camera feeling vulnerable. Know that we will pose you to show your curves and make you feel your best. We are so confident you will love your images, we will give you a full refund if you do not!

This a great gift for your groom on the day of your wedding!

WEDDING DAY

TIPS & EXPECTATIONS

Your big day is finally here! I'm so excited to help you capture all the festive events during the best day of your life. Here is an overview of what you can expect from me during your wedding day and some tips of how you can prepare.

EXPECTATIONS

During every moment of your day, I will be like a fly on the wall capturing each and every special moment you share with your guests and each other as a bride and groom. All important moments will be captured from preparations to the big 'I do' and anything that happens after the party is over.

DURING THE DAY

During your wedding day, make sure to set some time apart for us to do separate shoots away from the activities. We will do a shoot right after you get your make-up done, one with the entire family on the wedding location and a final shoot at the start of the party (with perhaps a wardrobe change if you wear a different outfit to the party).

PREPARING

In preparation for the big day, we will speak two to three times to discuss all the details. If you like, you can create a moodboard and share it with me. To prepare for your big day, make sure to bring anything that we discussed in the engagement section and don't worry about anything else - I'll take it from here!

AFTERWARDS

I will go out of my way to get you some sneak peeks in an online gallery as soon as possible. The final high res images will be with you within six weeks on our online gallery. Any prints that you order from these photos can be done directly through the site. Don't worry, I am always around for questions.
