What You'll Experience in the AgPV Expo

- ★ Meet people working in farming, solar, conservation, and land stewardship
- ★ Explore student and professional work in the Poster Gallery
- ★ Visit the immersive AgPV Engagement Zone featuring dual-harvest solar farms from around the world
- ★ Learn from the Soil Education Station
- ★ Run the AgPV Renaissance Circuit and connect with exhibitors across the hall
- ★ Explore pathways in agriculture, energy, STEM, and natural resources

SFS Student Design Challenge

Accepting rolling submissions

Students can design agrivoltaic or ecovoltaic solutions for real farm, energy, and environmental challenges - from drawings and models to slides, reports, or videos.

Resources include: grade-span prompts, an FFA version, Careers in Agrivoltaics, challenge downloads, activities, and inspiration for classrooms, clubs, and independent projects.
