Truth, Disinformation and the Media in the 2024 Election

Award-winning journalist and media executive Eric Schurenberg will join us on Wednesday, October 23 at 6:00 pm to explore the current news and election landscape.

You'll come away with an understanding of how social media and digital economics shape today's information environment, how partisan actors exploit our all-too-human vulnerability to misinformation, and how those economic and psychological forces have shaped the coverage of this presidential campaign.

This virtual event is free and open to the public.
