

## **TRAVEL – TELX**

**Why do we travel?**

**Why do we go?**

**We go to escape...to refresh...to be free.**

**We go to (re)connect...to touch...to hear...to see.**

**We go great distances to bring possible into reality.**

**At the speed of light! We go to carry destination over to destiny.**

**And, sometimes we go slowly,  
Simply to revel in raw inspiration,  
And we go to learn, to turn  
these journeys into refined innovation**

**We go to explore—going constantly further than we ever did before...**

**With ideas and (friend/partner/relation)ships intact,  
And dreams and needs securely packed,  
We go because we know there is more...**

**With a mind set on growth,  
We go far to be close;  
Ever ready, willing and able.  
We go to be there—live!—and to share time and smiles at the same table...**

**We go...**

**Go on...**
