

# STEADY-GRIP FOOT PEDAL

The First 3-in-1 Multi-Position Foot Pedal

## Increased Productivity

Boost your workshop's efficiency with the Steady-Grip Foot Pedal, allowing quick transitions and continuous operation. Designed for seamless integration, it minimizes downtime and enhances productivity in complex welding projects.

## Versatile Welding

Offering three versatile options: foot pedal, steady grip, and amp track slider. The steady Grip Foot Pedal is designed to provide optimal control and adaptability for various welding environments and techniques.

## Universal Compatibility

The Steady-Grip Foot Pedal fits any machine and is available in various cable lengths to suit diverse workshop layouts.

## CK Worldwide Steady-Grip Foot Pedal

The CK Worldwide Steady-Grip Foot Pedal features a versatile 3-in-1 design that caters to different welding needs. This device combines a traditional foot pedal with a steady grip and an amptrack slider, allowing welders to easily switch between amperage controllers based on the specifics of the job. This flexibility ensures that welders can maintain precision and control in various welding positions, enhancing both functionality and user convenience in diverse welding scenarios.

# STEADY-GRIP FOOT PEDAL

The First 3-in-1 Multi-Position Foot Pedal

## Now Included With Both The MT375 & MT200

The Steady-Grip Foot Pedal is now included with CK Worldwide's MT375 and MT200 machines, enhancing these models with added versatility and control. This integration offers a seamless experience for users looking to maximize the capabilities of their welding equipment, ensuring precision and efficiency in various welding applications. Whether for detailed, intricate work or larger-scale industrial projects, the addition of the Steady-Grip Foot Pedal to these machines sets a new standard in welding technology.

## HOW DO I ORDER?
