

GRINDING WHEELS

pg 10

THE ULTIMATE GRIND™ CERAMIC EXTREMELY FAST GRINDING

- Our best choice for maximum stock removal on metal and stainless

LAMINATED DISCS

pg 88

9S – CERAMIC ALUMINUM OXIDE (GRINDING AID)

- Excels on heat sensitive materials and non-ferrous metals with an exceptional performance and value

FIBER DISCS

pg 77

7-II CERAMIC PREMIUM PERFORMANCE

- Our highest performing disc for carbon steel

9-II CERAMIC PREMIUM PERFORMANCE WITH GRINDING AID

- Our highest performing disc for stainless and high alloyed steels

Grits:
36+
50+
60+
80+

FLAP DISCS

pg 64-67

OVATION® STAINLESS & TRIMBACK™ STAINLESS

- Premium aluminum oxide with grinding aid for grinding and finishing on stainless steel with minimal discoloration
- Works great on aluminum and non-ferrous materials with minimal loading
- Trimmable design allows for easy trimming to expose more material

For use on 9" cordless electric portable saws.

PREMIUM PERFORMANCE THE ULTIMATE CERAMIC CUT™

- Exceptionally long-lasting design that maximizes productivity for fewer wheel changes

GENERAL PURPOSE A60S

- Extremely fast burr-free cutting with long life

LARGE DIAMETER DIAMOND BLADES – SEGMENTED

pg 54-55

ALL PURPOSE – CONCRETE / ASPHALT

- Designed for cutting concrete, green concrete, brick, concrete block, paver and asphalt

GENERAL PURPOSE – CONCRETE

- Designed for cutting concrete with rebar and other concrete applications

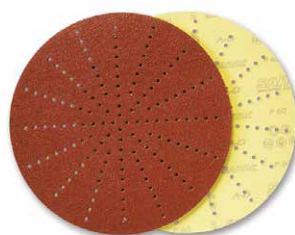

COATED ABRASIVES

pg 91, 93

EXTRA OPEN ALUMINUM OXIDE (AY-D)

- Economical, general purpose paper sheet - 9 x 11

GIRAFFE DRYWALL DISCS

- For use with "giraffe" style drywall sanders

NON-WOVEN ABRASIVES

pg 108, 110

ULTIMATE PERFORMANCE SURFACE CONDITIONING DISCS

SAIT-LOK™

SAIT-LOK-R™

ARBOR HOLE

- For aggressive applications where traditional surface conditioning products fail

GF - GRIND AND FINISH LINEAR POLISHING WHEELS

- Excellent for grain, antique, matte and satin finishes, finishing aluminum extrusions and applying an inline brushed finish on aluminum and stainless steel

ACCESSORIES

pg 131-132

SPIRALCOOL™ SAIT-LOK™ BACKING PADS FOR RESIN FIBER DISCS

- For use with SAIT-LOK™ fiber discs

SPIRALCOOL™ SAIT-LOK™ & SAIT-LOK-R™ BACKING PADS FOR QUICK CHANGE DISCS

- Unique spiral face increases aggressiveness and improves disc life by staying cooler
