

PPAACC Rain Plan

In the unfortunate situation of rain, here is the plan:

-The timing judge will allow a little extra time for your group **after** you clear the 50/50 line to get a decent fold on your floor (not a fan fold). This will hopefully allow you to fold it onto your cart. During this time, please use the outside edge of the gym floor, so the next group can set up.

-You can use any covered spot to store your floor until there are breaks in the warm up room schedule. Floor can be folded in the warm up room/cafeteria during breaks in the schedule.

-If you got a decent enough fold you may be able to just put your floor in your trailer or truck.

OTHER THINGS TO CONSIDER:

-Even though it's raining and wet, you cannot leave behind water in the competition area. Please have tarps and towels to cover and clean up all water.

-We ask the host of the show to please have extra towels and personnel on hand to help clean up if such a situation should arise.

The number one consideration is safety. Thank you for being patient and working with the show hosts and the PPAACC board to make this a successful event, even if inclement weather should head our way!
