

University & TAFE Attendance 2011 - 2021

NB. Data excludes international students.

OBSERVATIONS

- TAFE/VET attendance declined between 2011 and 2016
- TAFE/VET attendance grew strongly between 2016 and 2021, likely a result of the free-TAFE initiative
- University attendance grew significantly between 2011 and 2016, likely a result of uncapping student enrolments
- University attendance grew slightly between 2016 and 2021 despite the pandemic disruption in 2020/2021
- Female attendance at University is significantly higher than male attendance and somewhat higher at TAFE/VET providers, despite male attendance at secondary school being higher than females
