The Heart Lock-In Technique helps you accumulate energy and renew and recharge your emotional system with these steps:

Step 1. Focus

Focus your attention in the area of the heart. Imagine your breath is flowing in and out of your heart or chest area, breathing a little slower and deeper than usual.

Step 2. Activate

Activate and sustain a regenerative feeling such as appreciation, care or compassion.

Step 3. Radiate

Radiate that renewing feeling to yourself and others.

This benefits them and especially helps recharge and balance your own system.

When you catch your mind wandering, simply refocus your attention on the heart area and reconnect with feelings of care or appreciation. After you're finished, sincerely sustain your feelings of care and appreciation as long as you can.

Once you have become familiar with these steps, use the quick steps:

- Heart-Focused Breathing
- Activate a regenerative feeling
- Radiate

Heart Lock-In Basics

The Heart Lock-In Technique is considered an emotional restructuring technique because it helps you instate or lock in new patterns.

With practice, you'll learn how to sustain coherence for longer periods of time, making the coherent state your new reference point.

Achieving coherence becomes more automatic and creates a cushion against recurring stress or other depleting emotions.

Most people find that practicing the Heart Lock-In Technique in a quiet place for five minutes or more a couple times a day helps to accumulate energy and recharge their emotional system.

This cushions the impact of day-to-day stress or anxiety and other depleting emotions. When stressful feelings come up, many find a lock-in helps them maintain focus, make clearer decisions and dramatically reduce personal energy drain. It helps bring about more balance in your system. Sometimes more balance provides an energy boost and other times it helps slow down your system so that you are calmer and better able to relax

Feelings or attitudes you would like to radiate toward yourself or others. Write them down here or on another piece of paper. It really helps to write things down!
