

# Postal Power

Implement this procedure on **EVERY** legal document in the very beginning. It automatically TAKES your case out of the jurisdiction of the system. & put's it under International jurisdiction, and the system KNOWS this.

Using a postage stamp and autograph on it makes you the postmaster for that contract.

Whenever you put a stamp on a document, inscribe your full name over the stamp **at an angle**. The color ink you use for this is a function of what color will show up best against the colors in the stamp. Ideal colors for doing this are **purple (royalty)**.

The rationale for using two-cent stamps is that in the 19<sup>th</sup> Century the official postage rate for the *de jure* Post Office of the United States of America was fixed at two (2) cents.

Use stamps on important documents, such as a check, travel documents, paperwork you put in court, etc.

**put a stamp on the right hand corner of the instrument, both on the front and on the back. The bottom right hand corner of the face of a check, note, or bill of exchange signifies the liability. Furthermore, the bottom right hand corner of the reverse of the document is the final position on the page.**

If you have only one stamp, **put it where you are expected to sign and autograph over it cross-wise. In the case of a traffic ticket, for instance, put a stamp on the lower right hand corner where you are supposed to sign and autograph across the stamp at an angle.**

**Autographing a stamp not only establishes you as the postmaster of the contract but constitutes a cross-claim. Using the stamp process on documents presents your adversaries with a problem because their jurisdiction is subordinate to that of the UPU, which you have now invoked for your benefit. The result in practice of doing this is that whenever those who know what you are doing are recipients of your documents with autographed stamps they back off. If they do not, take the matter to the US Postmaster to deal with. If he will not provide you with your remedy, take the matter to the UPU for them to clean up.**

The countries whose stamps would be most effective to use are China, Japan, United States, and Great Britain. Utilizing these countries covers both East and West. However, since the US seems to be the point man in implementing the New World Order, one might most advisably use US stamps.

- If you put stamps on documents you submit into court, put a stamp on the back of each page, at the bottom right hand corner. Do not place any stamps on the front of court paperwork since doing so alarms the clerk. By placing**

your autographed stamp on the reverse right hand corner you prevent being damaged by one of the tricks of judges these days. A judge might have your paperwork on his bench, but turned over so only the back side, which is ordinarily blank on every page, is visible. Then if you ask about your paperwork he might say something like, "Yes, I have your paperwork in front of me but I don't find anything." He can't see anything on the blank side of a page. If you place an autographed stamp on the lower right hand corner you foreclose a judge from engaging in this trick.

In addition, when it comes to court documents, one side is criminal and the other is civil. Using the autographed stamp that you rubber-stamp with your seal (bullet stamp) on the back side of your court documents is evidence that you possess the cancelled obligation on the civil side. Since there can be no assessment for criminal charges, and you show that you are the holder of the civil assessment, there is no way out for the court.

- Also, in any court document you put in, handwrite your EIN number [SS# w.o. dashes] in gold on the top right corner of every page, with the autographed stamp on the back side.
- Use of a notary combined with the postage stamp (and sometime Embassy stamps) gives you a priority mechanism. Everything is commerce, and all commerce is contract. The master of the contract is the post office, and the UPU is the supreme overlord of the commerce, banking, and postal systems of the world. Use of these stamps in this manner gets the attention of those in the system to whom you provide your paperwork. It makes you the master of that post office.
- Use of the stamp is especially important when dealing with the major players, such as the FBI, CIA, Secret Service, Treasury, etc. They understand the significance of what you are doing.

The bottom line is that whenever you need to sign any legal/commercial document, put a stamp (even a one (1) cent stamp) over where you sign and sign at an angle across it. Let the recipient deal with the significance and consequences of your actions. If you are in a court case, or at any stage of a proceeding (such as an indictment, summons, complaint, or any other hostile encounter with the system), immediately do the following:

1. Make a color copy of whatever documents you receive, or scan them in color into your computer;
2. Stamp the original of the first page of every document with the ARFV stamp, put a postage stamp in the signature space, and autograph across it at an angle with your full name, using purple or blue ink, handwritten with upper- and lower-case, with your gold-

ink bullet stamp (seal) on the upper left-hand portion of the postage stamp;

Make a color copy of the stamped, autographed pages and/or scan into your computer;

3. Put a stamp on the lower right-hand-corner of the back of every page and bullet-stamp and autograph it;

- **4. Have a notary send each document back to the sender, with a notarial certificate of service, with or without an accompanying/supporting affidavit by you;**

5. If you have an affidavit, put an autographed stamp on the upper right hand corner of the first page and the lower right hand corner of the back of every page.

**People who have engaged in this process report that when any knowledgeable judge, attorney, or official sees this, matters change dramatically. All of these personages know what mail fraud is. Since autographing the stamp makes you the postmaster of the contract,**

**If the envelope has a red-meter postage mark on it, they are the ones who have engaged in mail fraud, because there is no cancelled stamp.**

- When you place an autographed stamp on a document you place that document and the contract underlying it under international law and treaty, with which the courts have no jurisdiction to deal.

**You cancelled the stamp by sealing it and autographing across it. You did so in capacity of being the living principal, as acknowledged by your seal and the jurat on your documents.**

I included the postal stamps "canceled" by affixing a postal stamp to each page, and autographing diagonally across the top of each stamp = canceling it, and putting the SS# on top without dashes for the redemption number, and sign our name at the bottom of stamp.

If you can get a light colored stamp, in a 2 cent denomination, it won't cost much.....

- **We have already learned that any litigant is going into international jurisdiction every time he goes to any court. Since the litigant needs to**

- establish that his papers are official, he uses a dollar postage stamp on the face of the first page. The stamps also invoke postal statutes and the Universal Postal Union jurisdiction.  
he stamp of choice is the fox U. S. dollar postage stamp.
- The litigant does, however, need to autograph across the stamp, then date the autograph, for two reasons: to comply with postal regulations concerning private mail carriers, and to make a continuance of evidence that the process (paper work) is mail

[269] So what we are doing, by placing the postage stamp on our admiralty paperwork and endorsement on the back of the first page, is using the authority of the sovereignty of the longest surviving, solvent, governmental authority in the United States.

Through the admiralty, we are taking the Post-Office and the judicial system back some two hundred years, and simultaneously creating a new territory with all the rights of union membership afforded to clearly independent countries. We are establishing the laws in this new territory with the paper work that we have filed. As we will see later, we are also correcting the errors of the founding forefathers; in that we are also bringing the equal rights that they neglected to give to all the people in the United States. We are eliminating all of the legal deficiencies that handicap the sovereign status of us, the people, within the court. We are guaranteed that all of the parties in the case: the clerk, judge, bailiff, and litigants have the freedom of transit in the admiralty court. If the clerk, judge, or other official fails to deliver our documents as directed, or delay them, or obstruct them, that person is faced with several penalties within the postal statutes and admiralty statutes. The final advantage is that if we are obstructed, because of the transitory nature of the action, we are in the admiralty and can take the case offshore for adjudication in any court in the world.
