PARC: Placement And Readiness Checklists

Part 2C: Placement Checklist for Students who are Deaf and Hard of Hearing: SECONDARY

Before the Individual Education Program (IEP) team makes a decision regarding services and placement for a student who is deaf or hard of hearing, two areas should be considered. First, is the student ready for the placement under consideration and, second, is the classroom environment under consideration sufficiently prepared to support the student? This checklist is the *Placement* component of this two part instrument. Its purpose is to guide considerations and decisions related to placement and service options for students who are deaf or hard of hearing in middle school and high school. Ratings may also guide the IEP team in providing supports when needed. The companion set of checklists consider the readiness of the student for the various learning environments and situations under consideration.

The information to complete this placement checklist should be obtained through observation and discussion with the current teacher, the prospective teacher(s), the parents and other members of the IEP team. Placement decisions should consider the student's communication, language, academic, and social needs in the context of the proposed learning environment. Note: Each area or item may not be applicable to every student.
