

agolin[®] 101

Dry Feed Flavouring Agent for dairy and beef cattle, calves, goats and sheep

Ingredients:

coriander oil, eugenol, isoeugenol methyl ether, geraniol, geranyl acetate, vegetable oil, silicon dioxide, fumaric acid, BHT, BHA (preservatives)

Feeding Directions:

Thoroughly mix into complete feed (grain portion of the diet) at a level of 50-250 grams per metric tonne, using the following guidelines:

Dairy Cattle 50 - 150 g/mt
Beef Cattle and Calves: 50 - 250 g/mt
Sheep and Goats: 50 - 250 g/mt

Warning:

Concentrated preparation. Handle with care, avoid development of dust and once open, reclose the packing to reduce exposure to air.
