

Dry Feed Flavouring Agent for pigs, sows and piglets

Ingredients:

black pepper oleoresine, eugenol, isoeugenyl methyl ether, geraniol, linalool, thymol, vegetable oil, silicon dioxide, fumaric acid, BHT, BHA (preservatives)

Feeding Directions:

Thoroughly mix into complete feed at a level of 100-200 grams per metric tonne, using the following guidelines: pigs, piglets and sows: 100-200 g/mt

Warning:

Concentrated preparation. Handle with care, avoid development of dust and once open, reclose the packing to reduce exposure to air.
