Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes

to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. Assumptions have been made regarding, among other things: FCL's ability to carry on its exploration and development activities, the timely receipt of any required approvals, the price of gold, the ability of FCL to obtain qualified personnel, equipment and services in a timely and cost-efficient manner, the ability of FCL to operate in a safe, efficient and effective manner, the ability of FCL to obtain financing on acceptable terms, the accuracy of FCL's resources estimates and geological, operational and price assumptions on which these are based and the regulatory framework regarding environmental matters. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. Although FCL has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended.
