

Touchscreen Tables

Deliver 360 degrees of brilliant, engaging content with a touchscreen table to enhance your brand experience. Elo delivers the widest range of interactive technologies for business and commercial use, and many of them are suitable for integration into “table” form factors - including work counters, coffee tables and sales tables.

Retail

Drive real brand interaction by providing shoppers with engaging information and promotional content on interactive tables, making it easier than ever to educate buyers and make a sale.

Car Dealerships - With so many car lines, features and colors, it is hard to communicate all of the options. Take the stress out of the process with an interactive hands-on experience, where dealer personnel can highlight features and review a variety of options to create a relaxing buying experience.

Home Improvement Retailers - Visualizing how paints, blinds and lights will look in a home is hard for customers, making the sale hard for the retailer. By using a counter or desk with an integrated touchscreen, the associate and the customer can collaborate and bring-to-life a project without the barrier of a desktop monitor between them.

Clothing Stores - Keep the kids entertained while parents shop with a multi-touch table experience. Enable your shoppers to enjoy and lengthen their experience while keeping those not shopping busy with a unique and immersive interactive experience.

Corporate Lobby

Provide a stunning first impression with a made-for-engagement touchscreen table in your lobby or waiting area. Help visitors pass the time quickly with an interactive table to entertain, educate and inform.

Entertainment

Transform entertainment experiences for guests at attractions, museums and casinos with beautiful, oversized interactive tables - creating hands-on and memorable experiences that build excitement for learning, entertainment and gaming.

Industrial Design

Work effectively and collaborate with your team of architects, designers or engineers on a ruggedized interactive touchscreen table. Enrich multiple person interaction with paperless productivity and ease of collaboration.

Hospitality

Create engaging experiences for hotel and restaurant guests with a multi-touch interactive table - allowing guests to learn about the hotel amenities, local entertainment and restaurants with ease. Serve up news and entertainment in a casual setting while your guests relax in the lobby.
