

Elo @ The Office

Make Collaboration Interactive at Every Touchpoint in Your Office

Elo's Interactive Digital Signage (IDS) displays offer professional-grade touchscreens with a slim design providing a great way to embrace collaboration in your meeting rooms, enhance your lobby, and guide visitors through your building.

Educate, Engage and Communicate with Interactive Signage in Your Office

Elo @ The Office goes beyond the traditional projector and big screen display approaches most offices use today. It brings interaction into your work space whether through a wayfinding display, self-service kiosk, conference room collaboration system, and more. Elo's touchscreen signage products have a solution for almost any application.

01

Lobby Signage / Corporate Communication

Let visitors control their experience by placing interactive digital signage displays in public settings like a lobby, hallway, or foyer to display videos, announcements, news, websites, and more.

02

Wayfinding

Provide an interactive platform for visitors to quickly navigate building directories, maps, services, and events from one inclusive resource.

03

Conference Room Scheduling System

Simplify meeting room reservations with wall-mounted interactive signage. Use your existing calendaring system or app with an Elo touchscreen AiO platform to increase visibility and simplify process.

04

Conference Room Collaboration Display

Present, annotate and collaborate seamlessly with touchscreens in your conference/huddle rooms. Enable freedom with touch to move between all types of content - slides, videos, apps, websites, pdfs and more.

05

KPI Management Dashboard

Communicate with your team through an engaging experience with a dashboard you can interact with. Maneuver through relevant information quickly all from a single hub that provides a versatile solution to monitor and motivate the organization based on KPIs.

06

Check-In / Virtual Receptionist

Never keep your guest waiting again! Create a consistent, reliable and immediate touch point using an interactive touchscreen.

Our products are designed by us, allowing us to develop a seamless design and architecture across our product lines with a variety of options. Whether used as a touch display or an all-in-one touch computer, both can be mounted on a wall, stand or within a kiosk.

Touchscreen Signage

- Available in sizes from 10-70 inches includes 10", 15", 22", 32", 42", 46", 55" & 70"
- Optional field-installable computer modules in various configurations
