SemaConnect™

Remaining Ahead of the Curve

with EV Charging Stations

Common sense suggests that as more people embrace clean transportation, a growing number of your customers will be arriving at your establishment in an electric vehicle. A key way to establish an ongoing relationship with this new wave of customers is by providing them with a valuable service – a place to charge their car.

Benefits of installing SemaConnect Stations include:

The head unit of the **Station is only 6" x 6" x 18"**, so it is easy to integrate into space-limited parking locations.

Installation is simple, quick and affordable. The electrical service connection only requires **3 wire nuts, 4 screws and you're done!**

Easily capture revenue with our simple billing and payment system.

Our web-based management system makes it easy to monitor and manage all of your charging stations. You can even receive text-based alerts and real-time usage updates.

Take advantage of Time-of-Use pricing and Demand Response programs.

EVs are quickly becoming a primary form of transportation for shoppers worldwide.

As a retailer, you should be asking yourself how you can capitalize on the trend towards clean transportation.
