

A REVOLUTION ON THE DESKTOP

Take Control with the VG2456 Docking Monitor

Designed to boost productivity and maximize output, the **ViewSonic® VG2456** is a 24" docking monitor that gives your customers complete control of their workspaces. Featuring a built-in Ethernet RJ45 port and the latest USB 3.2 Type-C connectivity, this monitor is the all-in-one command center you customers need to reduce cable clutter, simplify dual-monitor setup, and lower TCO. **Performance never looked this good.**

- **Streamlined Solution:** RJ45 and USB-C eliminates the need for costly and oftentimes problematic docking stations, and reduces the reliance on multiple wires, cables, and adapters.
- **Enhanced Productivity with Dual Monitor Setup:** With the latest USB 3.2 Type-C and DisplayPort output connectivity, this monitor can be easily daisy chained to another monitor for a productivity-boosting desktop setup.
- **Reduce Cable Clutter:** In addition to fast data, audio, and video transfer, USB Type-C also provides quick 60W charging over a single cable.
- **Comfortable Workspaces:** Swivel, pivot, height adjust, and tilt features provide a greater range of adjustment for increased productivity and comfort. Do even more by attaching a PC behind the monitor stand with the optional LCD-CMK-001 client mounting kit.
- **Higher Performance, More Savings:** Designed for the busiest of office environments, this monitor helps to reduce hidden business costs by eliminating the need for docking stations, delivering faster deployment, and minimizing recycling fees with eco-friendly packaging.
