

In place of my weekly article, I want to share with you an important message from Jeanine Kellman

God bless, Father George

The Ministry of Art and Environment.

Each parish needs to prepare and care for the environment of the liturgy. Our Lady of the Lakes Parish is looking for people of talent and skill for preparing a beautiful worship space. Each church has had volunteers who have worked for the beauty of the church, and your gift of time and energy is so appreciated.

As we begin rebuilding our church ministries, the Arts and Environment Committee is not so much a task of new beginnings, but an attempt to reorganize our efforts.

Art and environment for the church needs to be dignified and beautiful. It needs to be worthy of the holiness of the sacred action of the Liturgy. It should be the expression of the people and direct our attention to the suited season or celebrated feast.

Fr. George has asked that we have an Arts and Environment Committee with the goal of making our liturgical space beautiful, inviting, and uplifting in worship.

If you would like to join this ministry, we need your help.

Please contact Jeanine Kellman at jkellman@ourladylakesparish.org

or talk with me at Mass. I will be so pleased to meet you.
