

LOVE KILLER

Fear is a Love Killer,
Look what it did to her
Get out love killer
before you get bitter

I'm here for the dream of love

I'm here for the dream of love
Is the world made of wanting, I'm sure humanity was
And I'm here for the dream of love

Black stars above her, fall in like disco,
Get out Love Killer, if you want better

I'm here for the dream of love

I'm here for the dream of love
Is the world made of wanting, I'm sure humanity was
I know that this woman was.

I'm here for the dream of love

Don't care if I'm right now
I just want something happy
And I want it for you
I've been here before and
It feels like an ending
Sorry I'm bad at this too

I'm here for the dream of love 4x

I'm here for the dream of love

I'm here for the dream of love
I'm here for the dream of love

I'm here for the dream of love
Is the world made of wanting,
I sure was
I'm here for the dream of love

I'm here for the dream of love
