**ENGINEERING**

BETTER DESIGNS.  
LONGER LIFE.

**MAINTENANCE**

RIGHT WORK.  
RIGHT TIME.

**SUPPLY**

STRONG PARTNERS.  
MORE VALUE.

**BRISBANE, QLD**  
**DECEMBER 9, 2026**

*FROM POTENTIAL TO  
**PERFORMANCE.***

Unlock the reliability your assets  
were built to deliver!

# INTRODUCING **RAMP**

(Reliability Asset Management Program)

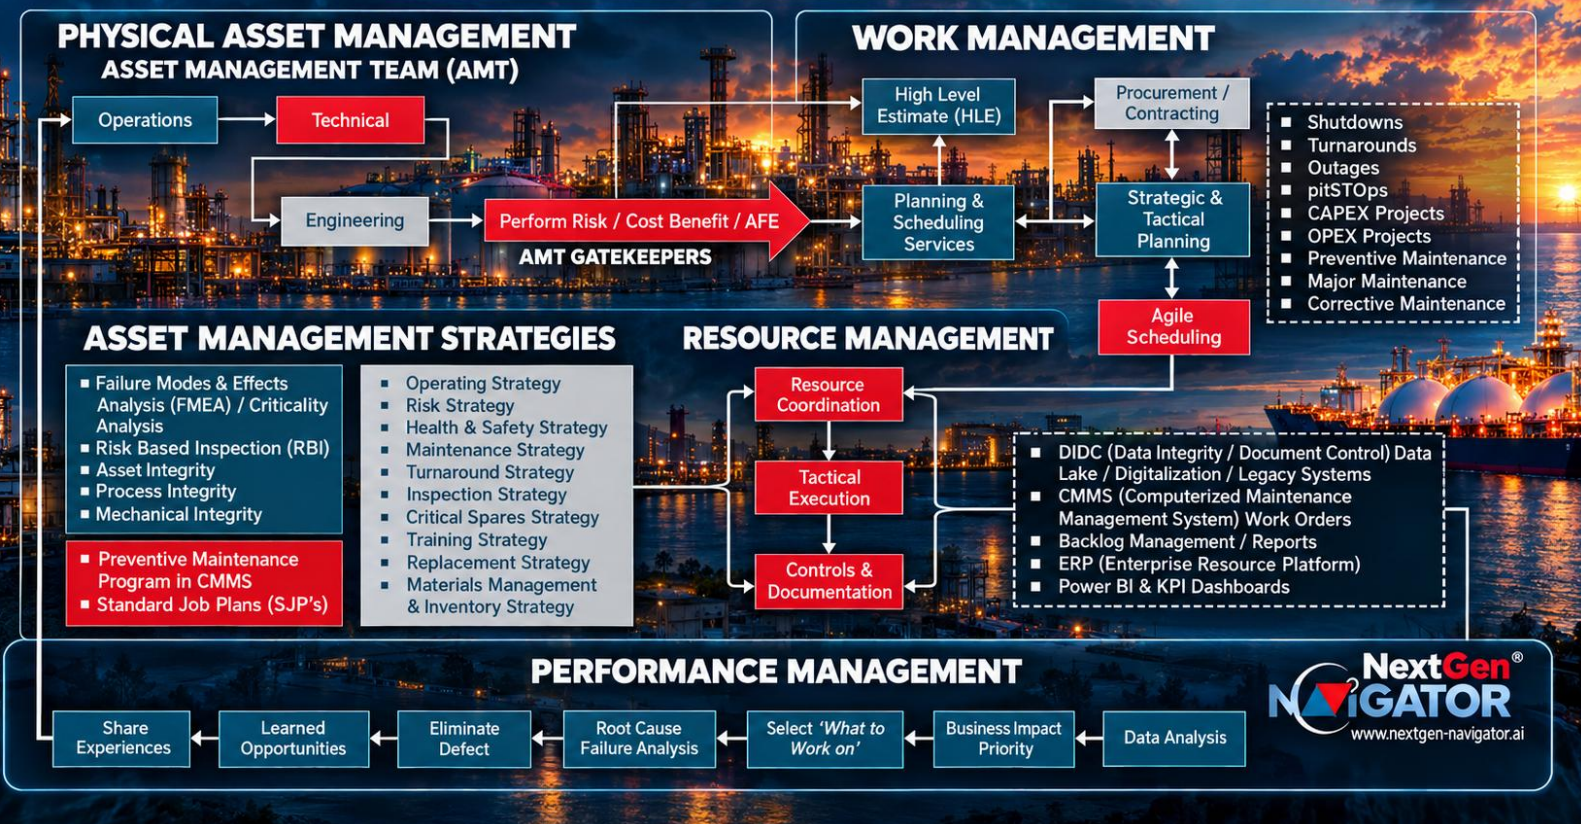

**Brisbane, QLD | Wed, Dec 9, 2026**

One-Day Workshop | BNE Airport Conference Center

*"It took one day away from site, and an open mind, to shift a decades-long paradigm we did not realize was putting our human and physical assets at risk and costing us in both unplanned downtime and inefficiencies at the workplace."* —

Senior Manager - Reliability & Asset Management - BASF Petronas

## **RAMP — RELIABILITY ASSET MANAGEMENT PROGRAM**

## What is RAMP?

The Reliability Asset Management Program (RAMP) provides a formal, pragmatic approach to managing physical production assets for maximum sustainable reliability at the lowest risk/cost, incorporating Asset Management, Work Management, Resource Management, and Performance Management in conjunction with your EAM/ERP CMMS (Computerized Maintenance Management System) to support Routine Maintenance, Major Maintenance, Capital Projects, Shutdowns, Turnarounds, Outages, and pitSTOps (supported by effective Planning, Scheduling, SCM, and HSE services for the highest workforce safety, quality, and tool-time efficiency).

**EARLY BIRD PRICING**

**AUD \$495**

Limited seating — reserve your seat today

✓ 20% group discount | ✓ Networking lunch included

**REGISTER NOW >**  [nextgennavigator.regfox.com/ramp](https://nextgennavigator.regfox.com/ramp)

### Discover how RAMP improves:

- 🚧 risk/cost benefit decision making
- 🚧 physical production asset reliability and infrastructure integrity
- 🚧 backlog management and weekly/daily scheduling and compliance
- 🚧 planning, scheduling, and procurement services
- 🚧 maintenance services (inhouse and contract)
- 🚧 workforce safety, quality, and tool-time performance
- 🚧 process availability of on-spec product at designed rates
- 🚧 shutdown and capital project performance

# Workshop Facilitator & Guest Speaker

## EJ (Ted) Lister – Workshop Facilitator

Founder/CEO NextGen-Navigator AI Inc.

Ted was instrumental in the creation of RAMP from years of research, practice, and continuous improvement under the mentorship and guidance of internationally recognized practitioners, assisting asset owners with sustainable reliability and balance sheet performance.

## Norm Poynter – Guest Speaker

Asset Management Advocates Co-Founder

Norm co-founded Asset Management Advocates, named by CIORReview among the top 10 EAM consulting firms. Norm is also founder of NLAS Possibilities and leads the NLAS/AMA training practice, built on the conviction that no reliability program outruns the quality of the data underneath it.
