

LED Solar Sign Light

Compact In Design - Functional In Form

The LED Solar Sign Light is an out of the box solar lighting solution that comes pre-assembled, is easy to install, and requires virtually no maintenance. It is a clean, renewable, lighting solution ideally suited for virtually any location that has no access to conventional power or where running conventional power would be cost prohibitive.

The LED Solar Sign Light represents the next generation of solar powered LED lights with a long rated life that virtually eliminates ongoing maintenance expenses and provides significant operating cost benefits over the life of each system.

Applications

- Ideal for small signs up to 5' X 12' for single sided signs, or 4' X 8' for two sided signs. The LED optical systems provide highly uniform lighting and excellent color rendering that will show off your sign.
- Typical applications include signs, but are not limited to other applications such as monuments, statues, and artwork.

Housing & Bracketing

- Aluminum battery enclosure.
- 5052-H32 aluminum bracketing.

LED & Optical Assembly

- Structured LED lamping for optimized area light photometric distribution.
- Integrated high efficiency drivers.
- Utilizes bright white LEDs, 70CRI @ 6200K.

Lumen Maintenance

- LED rating of 50,000 hours.

Ratings

- Solar module: UL, CE, IP 65, SA.
- Charge Controller: CE, RoHS.
- Battery: UR, CE.
- Connectors: UL, CE.
- Fittings: UL.
- Enclosure: UR, NEMA 4x.
- Temperature rated at -30° to 50°C.

Run Times

- Maximum: Dusk to dawn.
- Optional After Dusk Times: 2,4,6,8,10 hours.
- Optional Split Times: 3/1, 4/2, 6/2.

Mounting and Installation

- Designed to mount to any standard 4 X 4 pressure treated wood post, eliminating the need for high cost specialty poles.
- Simple design allows for installation by a single technician in approximately one hour.

Finish

- Durable baked on powder coat finish.
- Standard color: Mill finish.
- RAL and custom colors available.

Electrical

- 12 VDC.

Charge Controlling System

- PWM battery charging.
- Low Voltage Disconnect (LVD) battery protection.
- Temperature compensation.
- Automatic on/off time with automatic adjustment for seasonal changes.
- In-line protective fuse with LED fuse condition indicator.

Solar Module

- Polycrystalline silicon cells.
- Tempered front glass.
- Anodized aluminum alloy frame.
- White PET back foil.

Battery

- No maintenance, non-spillable, valve regulated, sealed lead acid.
- 4-day battery reserve.

Warranty

- 5-year limited system warranty standard.
