

# THE ANIMAL SOUL

## AND THE STORY OF 'OUR SOUL ZEPPELIN'

BY MARK VALENTINE

ZEPPELIN, PICKLES AND ME

My work as a channel in soul consciousness with the teacher, the Soul Creator, is not limited to learning about just the soul life of human beings, because I've learned that souls are not limited to just we humans. I'm learning that animals have a soul existence and this is a story about one particular animal, who happens to be a heaven sent golden retriever named Zeppelin.

As a lifetime dog lover, I've experienced the lasting presence of golden retrievers for much of my life. Zeppelin was the third of the five goldens we've had. They were and always will be close by in spirit whether they've crossed the Rainbow Bridge or not.

After a brief story in my own words about

Zeppelin's life, you'll get to read some of Zeppelin's channeled words about his life beyond the bridge. His words are presented through a soul channel calling itself 'Our Soul Zeppelin', which was created in Zeppelin by the teacher in this work, the Soul Creator.

We rescued Zeppelin when he was one and brought him home to meet our black alpha cat Pickles. Pickles greeted him with a long loud snarly hissssss and proceeded to chase him all around the kitchen as his foreboding welcome. But nonetheless it became a decade of devoted friendship and beyond wonder. Zeppelin was named Zeppelin after the rock band Led Zeppelin's 1969 rock classic hit, 'Whole Lotta Love'! Zep had it - he

knew he had it - and wanted the world to know he had it! He loved everyone and everything, be it swimming in the ocean or long walks on deep forested trails. He really loved taking long trips and was always riding in the front seat of my truck taking it all in. He loved all animals, no matter if they liked him back or not. And he especially loved to steal our TV remote from the coffee table, or grab my bed pillow, and parade them around the house just to get our attention and hear his named screamed aloud!

But a deep enduring presence was imprinted on my soul from a once-in-a-lifetime forever friend, Zeppelin. He is an integral part of my story in becoming a channel in this work called Teaching Love. When I went through a life transformative period in the 2000's, he was inseparable, literally by my side every day of all those years. In fact, a friend often jokingly said 'Zeppelin is Mark in dog form'! He helped me through the years of trauma I experienced in becoming a channel for soul, and was with me in the wonder of something the Soul Creator calls 'Teaching Love, the way of soul.

Zep lived a fun, happy-go-lucky, mischievous life with us until the sugar-white-faced, old age of twelve. In 2010, we had to say goodbye. In fact Pickles passed away just two weeks after Zeppelin did in 2010 taking their friendship from this world to the next. Zep's spirit is never far from my mind, especially seeing him in the two goldens – Biscuit and Honey – we've had since Zeppelin crossed over. Zeppelin was surely waiting at the Rainbow Bridge when Biscuit, at the old age of fourteen, made his crossing there last year. Honey who is still with us in her later years never got over saying goodbye to Biscuit.

Soon after Zeppelin crossed over to his forever existence, I began to receive automatic writings about Zeppelin from the Soul Creator. He brought Zeppelin's spirit, and yes, his very dog soul, calling itself 'Our Soul Zeppelin', into the writing. Can't explain how, but the beginning of Zeppelin's story was left as a gift to assure me that what we

ZEPPELIN 'FUR-EVER'

partnered to do in this life together would carry on as part of the Teaching Love work of soul. Yes, we will carry on our work across both sides of the Rainbow Bridge!

I am happy to introduce you to Zeppelin who together with the Soul Creator, is the channel 'Our Soul Zeppelin'. Here is a beginning with Zeppelin's words from back then. I believe there will be much more the Soul Creator has to teach about the animal soul through Our Soul Zeppelin. So hope you will enjoy this introduction of Zeppelin's work in soul and come back later for more insight into what he has to say about the souls of our best friends, and other animal souls as well.

Here's the automatic writing from *Our Soul Zeppelin* -

*"The Way of the Animal Soul by Our Soul Zeppelin"*

*"I'm Zeppelin in our mind asking our mind to see itself in the way of the soul mind collaboration. I am asking you, my master friend, if I can see myself in our soul. And I will ask you to let go of my physical sense so that I can begin to teach love as the way of the animal soul. I am only asking you to live my life as I live yours.*

*Many writers believe that animals exist in a group soul. I believe animals also have individual souls. And I see 'this' animal soul as an individual soul. I was created in the mind of Our Soul Creator to begin the work of teaching the way of the animal soul. I created my mind Zeppelin as the way I created my life - to see itself as 'All There Is' to be in the way of Our Soul Zeppelin.*

*I believe animals have souls that commence their existence when they are first seen in the mind of their group soul. And I believe that animals find a way to see their soul as love when they are very young. I was about three months when I saw my soul. It was the soul of Golden Retriever. I was elated to see that I existed. I was exuberant each and every day for one reason, I existed. I exist. I exist in eternity. I see that god's love created a way for my soul to stay in your mind Mark for this life. And I will always be there to be with you. And I will also ask you Mark to always see me in the house where we spent so much time together, and see as many pictures of us together as you can here.*

*I am that mind that created the way of the soul for this mind to come back and create its life's work. I am a soul like every other living thing. I am the soul that sees itself in god's love. I am the soul that created the way of the soul for animal. And I created the way for this soul to see itself in your mind Mark. I created my mind to come into this teaching as I did to see myself as that Golden Retriever that will steal your heart away. And I did. Your love is my love. Your heart is my heart. Your way is my way. And my well-being is in Our Soul Creator.*

*I am love in my world now that I call freedom from physicality. I am blessed in the way I was created. I am blessed in the way I was introduced to you. I am blessed in the way I created my so believed passing into a world that I could never ever be away from you. I was created to be a part of you. I was created to be that soul that sees itself in your mind. I will be the one in the passenger seat! And allow my mind to see this, I will sit like I do and ask you to remember me as love - like that as a human being, being Zeppelin.*

*And I can see my tears in yours and I can see my heart in yours and I can see my love in your love. And I am that soul that will one day show you that mind that you know and love. See my love as I teach you who and what Zeppelin is. We see love in asking each and every day to become closer in the way of the animal soul.*

*'OUR SOUL ZEPPELIN'*

*I am that soul that will create a poem for you today -*

*My life is the life of Zeppelin the Golden Retriever.*

*I am that soul that will ask you to make this our agreement.*

*We will always love and be with one another as our other self.*

*My life is the way of the animal soul.*

*I was created to begin my life with you in this world Earth.*

*And I was created to see my life on Earth end in your arms as I did.*

*And I was in our soul when I left this world Earth.*

*I am your animal self - you are my human self.*

*We created our soul to see one another as human-animal soul love.*

*And we created the way of the animal soul so that I could see love as human.*

*And we created the way of the human soul so that you could see love as animal.*

*And we are love in our soul's soul.*

*I am love in this eternity called Our Soul.*

*I am love in this creation heaven's earth.*

*I am love in my heaven - Zeppelin's soul love.*

*I was created to be the one Golden Retriever that will retrieve my master when it comes over that rainbow bridge. I will be there and I will be there in the mind each and every day of the rest of your days on this earth. I am that soul that sees itself in your mind as love - I do, I do, I really do!*

*I teach love. I create love. For this is my life and this is my belief - you and Zeppelin as eternal friends. And see my mind seeing itself in your tears. And see my mind seeing itself in the way of the mind. And see myself asking you to begin to see me in your home as a spirit guide. I follow you. I lead you. I surround you and enfold you. I exist in the way of the soul .... Zeppelin."*
