T H E N O N P R O F I T

According to UNICEF over ONE MILLION KIDS are trafficked worldwide each year. Statistics like this are mind-numbing. But we cannot afford to be overwhelmed by the scope of the problem. We must provide the solution. Together we must act.

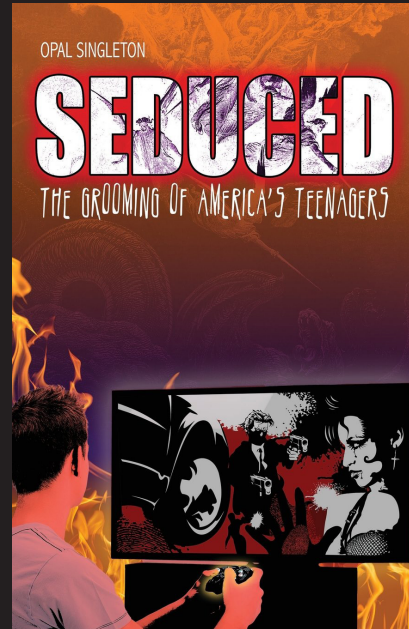

Million Kids began with a simple concept. We believe if the bad guys are harming this many children a year, then the good guys must help even more. And with the efforts of our partners and your support, we can. Human trafficking and exploitation is an assault on human freedom and dignity that must end. Together, we can make a difference.

Million Kids is a 501(c)(3) nonprofit that combats human trafficking and exploitation including child pornography, social media grooming & recruitment, and sextortion. Locally, we serve on the Riverside County Anti-Human Trafficking Task Force (RCAHT) as the Training and Outreach Coordinator. Nationally, we provide lectures and training programs to corporations, civic groups, churches, and government agencies. Internationally, we support rescue and recovery programs in Southeast Asia and Haiti.

Human trafficking is an assault on human freedom and dignity that must end. Together, we can make a difference. In order to conduct our work, both here and abroad, we depend on the generous support of individuals, businesses, and organizations.
