2020 California Wine Growing Condition
Excellent quality and vibrant character defines 2020 California vintage. The season got off to a slightly later start with bud break. Weather impacts on bloom contributed to a lighter crop for some varieties. We report with excellent quality with great freshness and vibrancy, and good flavors at lower sugar levels. Our Cabernet Sauvignon and other later-ripening varieties are showing good concentration. Yields were down quite a bit across the region, with some older field blends off 15% to 25% from last year. vintners across the state are expressing excitement about the quality of the vintage. Following a cool, mild growing season, an August heat spell accelerated ripening, resulting in an early start to harvest.
