

Highway 12, County Road 90 Roundabout in Independence

Project Description

MnDOT, in conjunction with Hennepin County, is planning to construct a roundabout at the intersection of Highway 12 and County Road 90 in Independence.

Purpose

The roundabout will reduce severity of crashes and improve safety. The proposed type of roundabout has been shown to reduce the frequency of serious life-altering injury crashes by 79 percent, moderate injury crashes by 36 percent and minor injury crashes by 10 percent.

Traffic impacts

Expect highway closures and traffic restricted to locals only between County Road 6 and County Road 92. The detour is County Road 6.

Construction Cost

This project is expected to cost about \$4.7 million, using a mix of federal, state and county funding.
