

Consulting | Technology

Nexo Solutions has the most comprehensive line of engineering consulting, testing and technical services for Amine Units and Gas Processing worldwide. Our solutions are matched to individual units for improving process performance, plant reliability and profitability.

Consulting & Technical Services

- Process Consulting & Simulations
- Onsite Troubleshooting & Testing
- Feed Gas and Liquid Testing
- Unit Audits & Evaluations
- Activated Carbon Replacements
- Hydrocarbon Value Improvements
- Vessel & Unit Inspections
- Operator Technical Trainings
- Rental Filters & Coalescers
- Laboratory Chemical Analysis

Chemical Products & Technologies

- Antifoams
- Emulsion Breakers
- Corrosion Inhibitors
- Iron Sulfide Scale Inhibitors
- Pipeline Foam Reducers
- Activated Carbons
- O₂ Scavengers
- H₂S & Mercaptans Scavengers
- Specialty Chemicals
- Laboratory Supplies & Reagents

Mechanical Products & Systems

- Filter & Coalescers Vessels
- Filter & Coalescer Elements
- Vessel Reconfigurations & Internals
- Separators & Scrubbers
- H₂S & Mercaptans Removal Systems
- Methanol & Color Removal Systems
- Process Equipment & Complete units
