

Nexo Solutions has the most comprehensive line of engineering consulting, testing and technical services for Gas and Liquids Processing worldwide. Our expert consulting services are matched to individual process units for improving plant performance, sustainability and profitability.

## Process Consulting & Technical Services

### Process Unit Consulting

- Process consulting and performance improvement
- Amine, Caustic, Dehydration, Sour Water, Cryogenic Units
- Process simulations and optimization
- Energy efficiency reviews
- Equipment evaluations

### Onsite Troubleshooting and Testing

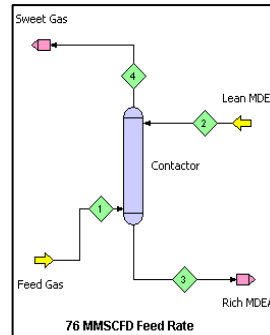

- Foaming & losses troubleshooting
- Corrosion and fouling root cause analysis
- Inlet gas contamination testing
- Onsite gas composition analysis
- Filter and coalescer performance testing
- Solvent contamination testing
- Process unit audits and reviews
- Tower infrared and gamma scans

### Technical Seminars

- Operations, troubleshooting & optimization
- Energy minimization & solvent protection
- Site specific training

### Laboratory Services and Analysis

- Contamination analysis
- Solvent analysis and adsorbent analysis
- Filter and coalescer media evaluations
- Activated carbon testing
- Antifoam and emulsion breaker efficiency screening
