

## **Inside Music Nashville Opens In Music City**

### **Forms Strategic Partnership With Writer/Producer Marc Costanzo**

(Nashville, Tennessee...) – April 8, 2020 – The recently formed production and writing house Inside Music Nashville has officially opened in Music City as a collaborative company poised to create new music for artists, publishers, record labels and various musical outlets. Producer, keyboardist and arranger Kory Caudill will helm the new company, which has also enlisted the creative and business resources of Marc Costanzo, a multi award winning, writer/producer and publishing executive from Toronto, Canada.

“When Marc and I first met, the thing that stood out the most was how important roots are to both of us,” said Caudill, acclaimed Country, Jazz & Bluegrass composer/arranger who has performed with Justin Moore since his major label signing in 2008. “Marc is an absolute guru when it comes to writing and producing pop music. He’s also bringing to Inside Music Nashville many of the resources from his world, including his longtime R&B and Hip Hop production partner, Martin ‘Bucky’ Seja.”

Costanzo has seen major success over the years both as a writer and producer and in developing writers and artists in Canada, the US and the UK. His Toronto-based publishing company has vested interest and ownership of catalogue publishing rights totaling more than 35+ million albums sold. In the last few years alone, major synchs for the company have included: *Peter Rabbit* the Movie, Amazon North American television campaign, Hampton Inn worldwide television campaign, Hotpoint UK Europe, Middle East and Japan television campaign, QVC US and Canada television, Tropicana Canadian television campaign and Kinder Joy North American television campaign.

Recent placements in television programming include *South Park*, *Beat Shazam!*, *America’s Got Talent*, *Live with Kelly & Ryan*, *The Four: Battle For Stardom*, *Future Man*, *Kevin “Probably” Saves The World*, *American Idol*, *Mr. Robot*, *Nathan For You*, *Valley Of the Boom*, *Pen15*, *American Dad*, *Roswell: New Mexico*, *In The Dark*, *Superstore* & *Wild ‘N Out*.

Along with Costanzo, Caudill has appointed executive Matt Williams to assume the role of Inside Music Nashville General Manager.

“It’s a real pleasure to bring together the knowledge, resources, and personnel from both Kory and Marc’s vastly different cultural, musical and business backgrounds,” said Williams. “We are looking forward to bringing together two different worlds of music and business and working together towards a common goal.”

Caudill adds, “I couldn’t be more excited about the team we’ve put together. When working with Marc and Bucky, there’s an endless amount of hooks, ideas and production coming out of these guys daily. We’re looking forward to welcoming writers and Nashville-based publishers who want to jump in on some ideas and collaborations with us. While social distancing guidelines have us temporarily away from the studio, we’ve always been setup for high quality remote work and we’re going to see a lot of music come out of our camp in the next six months.”
