Divers Training & Supply, Inc is proud to have a strong educational philosophy. Your Instructor Peter R. Corbett has 3 earned Masters Degrees and over 35 years of educational experience in teaching, coaching, diving, and administration. We start every class and maintain throughout every program two Goals: Safety and Confidence during all activities. It is with this commitment to Diver Safety and Diver Confidence that we welcome you to this instructional program.

Course requirements: Students will follow PADI & Instructor guidelines and successfully complete the course requirements to achieve the \_\_\_\_\_ Specialty Diver Certification or Junior Specialty Diver Certification.  
(Name of Specialty)

These requirements are met by classroom instruction, hands on practice, home study, textbook and / or DVD exercise assignments as well as in the water instruction and dive briefings as related to this curriculum. Some courses require a written examination as part of the guidelines. Once a diver has mastered their academic requirements of the class, they must complete specific dive activities under the direct or indirect supervision of their instructor in the confined and / or open water. Some dive activities may be done in conjunction with other training type of exercises, activities, or other certifications. Students must be a minimum age of 12 and have instructor approval to participate in this curriculum. Instructor approval is designed to evaluate a student's maturity, physical ability, and the diving skills necessary to successfully and safely master the requirements of this specific curriculum.

Your instructor may require a student to demonstrate their diving skills in the confined water and / or in the open water as part of participation in the specialty. This demonstration of an individual's expertise is necessary to qualify their certifications as being both current and proficiently applicable to specific skills required for a specific specialty and necessary for their Specialty Diver Certification.
