

How frequently you should pump your septic tank in years

Septic Tank Size in Gallons	Household Size				
	1	2	3	4	5
500	5.5	2.5	1	1	0.5
750	9	4	2.5	1.5	1
1,000	12	5.5	3.5	2.5	2
1,500	18.5	9	5.5	4	3
2,000	25	12	8	5.5	4.5

This is the maximum time that we recommend going in between septic pumpings for a system that is functioning properly.
