I understand that leak adjustments are permitted once in a 12-month period. I also understand that adjustments are figured by the difference between my average water bill and the bill that reflects the leak. The adjustment is then based on what my average water usage would have been and any water metered above that amount that leaked, will be charged to me at \$.00441 per thousand which is the lowest rate approved by the Public Service Commission for Bronston Water. I further understand that even though an adjustment is to be considered, I am still responsible for the bill and that if I should be disconnected for non-payment, the entire amount, plus a \$21.00 reconnection fee, must be paid before service will be restored or any adjustment will be credited to the account.

I hereby verify that I have read the information given above and that all statements are true and correct, and that the excess usage in my plumbing system has now been corrected.
