- ❖ Stop weeding
- ❖ Control pest
- ❖ Plants grow faster,
- ❖ Reach maturity quicker
- ❖ Water bill is reduced dramatically
- ❖ Fertilizer, pesticides
- ❖ Handicap Accessible
- ❖ Can germinate your seeds
- ❖ Sell your food!

We at Torpedopot™ believe that our patented Self-watering Planters will revolutionize the garden industry. Your Torpedopot™ can grow hundreds of fruits, vegetables, and plant foliage by just turning a knob. That's right! Once setup, turn one knob and walk away for the remainder of the growing season. You can grow thousands of plants with no tools, only a couple hours of work for the whole growing season, and within two square feet.

Torpedopot™ can grow almost anything. You do not need a massive plot of land or an expensive greenhouse to enjoy your plants. The Torpedopot™ will produce more foliage per square foot than traditional planters. Our watering technology ensures that your plants grow faster, reach maturity quicker, look aesthetically pleasing, and produce more growth per square foot than traditional planters. All you do is add dirt, seeds or seedlings, adjust the water flow and walk away. No gardening experience is needed.
