

World Expert in Containerized Growing Systems

Darral Addison Founder & CEO at Torpedopot

My name is Darral Addison. I'm the founder and CEO at Torpedopot. Some of you visited us at the 2008 Philly Home and Garden Show or the 2018 ACGA Annual Conference in Atlanta. Most of you have seen my videos from the (www.Torpedopot.com) website or maybe from my YouTube videos.

Torpedopot is an African American family-owned business that's located in Lansdale, PA. Darral remembers how life was like at thirteen years old, how he would be bused to local farms in NJ to pick fruits and vegetables. Those were long hot hours, but I was grateful for the opportunity to work. At the farm, I learned the value of work and money.

Video

In 2017, Darral, with the help of his family, developed a containerized growing system that grows your food for you. All you do is add soil, seeds, or seedlings, turn on the self-growing planter, and walk away. Darral purchased a 1500 sq ft manufacturing plant in Ambler, PA, and started developing plans for mass production. The facility gave us the

room to complete research and development and to launch our first completed product. The Curved planters Series can grow over [700 tomatoes in 20 ft.](#) Torpedopot outgrew that location. The company operates in Lansdale PA, with over 20 company representatives. Our technology gives your plants the tools it needs to create a sustainable biotic environment. Torpedopot™ allows you to create optimal decomposition conditions and provides a space for plants so they can choose which microbes they want to harvest. Torpedopot™ focus is on improving the soil's biological and chemical processes that affect plant productivity, thus increasing yields.

Water and food shortages are coming , you ready? - Dr. Claud Anderson

[SHOPPE BLACK](#)

Darral Addison is a Black inventor. He is also the CEO and founder of Torpedopot™, a company that makes the world's first Self-growing planters.

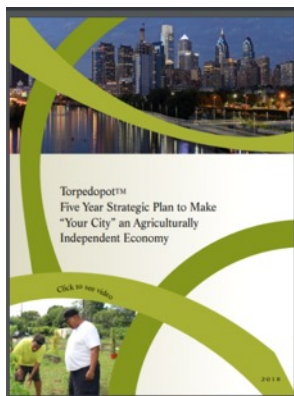

[Reality Check - WURD Radio Station](#)

Charles Ellison host: Earl Harvey, Publisher of Black Professionals News (theBlackProfessionalsNews.com) and Darral Addison, Founder & CEO of Torpedo Pot (torpedopot.com) joined Charles to continue a discussion around black farming.

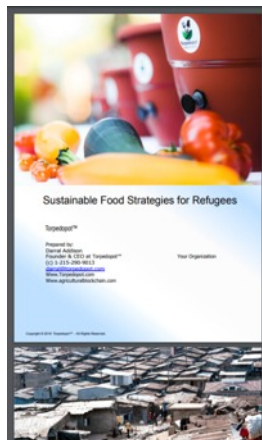

[WITF's](#)

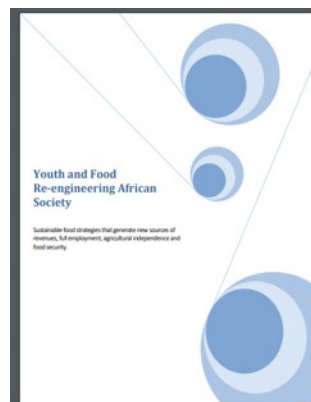

Series of virtual community conversations hosted by Charles Ellison addressing systemic racism and injustice in Central Pennsylvania and beyond continues. In this conversation we examine environmental justice. A report from the Environmental Protection Agency finds that people of color are much more likely to live near polluters and breathe polluted air – even as the agency seeks to roll back regulations on pollution.

Roy B.Verified ★★★★★

Greatest food sources ever -
Because of the torpedo pot I
would never run out of fruit or
Vegetables as Well as many other
foods that I can grow for my

Khaliday ★★★★★

Love it!! just started putting
seeds in. I followed the
instructions and it's working.

Chaunta S.Verified ★★★★★

Best investment ever. I love them
pot's.

Brian J..Verified ★★★★★

Spinach started to grow in 10
days Spinach grew fast. This was
a gift for my wife for Mother's

King R.Verified ★★★★★

Amazing

Don B.Verified ★★★★★

Excellent experience thus far.
Setup Excellent experience thus
far. Setup took about 10-12
minutes for five pots. And that's
from knowing nothing. Placed
seeds in pot on May 15th, as of
yesterday May 22nd my plants

Anthony ★★★★★

BELIEVE THE HYPE. It's Real
Deal!!! Cant wait to add to our

Terry K.Verified ★★★★★

Blessing! love it and I appreciate

AJanet C.Verified ★★★★★

I Love My Torpedo Pots! I have nine Torpedo Pots of various sizes planted now and
everything is growing beautifully. The pot even rescued my ailing fig tree, now covered
in new growth. The auto watering has made all the difference for me in hot sunny
Florida. Torpedo pots are making me look like a master gardener! Love them.
