Our award winning (Gold Medal with Distinction – Canadian Artisan Spirit Competition 2021) Noteworthy Gin is our flagship gin which is a hand-crafted, small batch gin made from 100% British Columbian grown barley, carefully fermented in stainless steel and then transferred to our German copper pot still. After three precision distillations – two to clean the spirit and one to infuse our botanicals, it is then both hand bottled and labeled allowing constant monitoring of the quality control process.

Ceres, the Roman Goddess of agriculture and grain crops, inspired this exquisite gin recipe. Our careful, meticulous process contributes to the smoothness of this refreshing and carefully balanced gin making it ideal for cocktails, the classic G&T. It's an incredibly balanced and refreshing gin.

Everything about Noteworthy, from the premium packaging to the raw ingredients is about quality and craftsmanship. Our attention to detail and passion for high quality spirits is in every bottle.

"Classic contemporary fruity nose that is concise and balanced. One flavour doesn't dominate the next. A huge wow of a gin."
