

STOWLOCH WHISKEY

AGED 10+ YEARS

Stowloch Whiskey Single Barrel Reserve (SBR) is curated from specially selected barrels. Each Single Barrel Reserve is born using natural Ozark Highlands limestone-filtered water, food-grade heirloom-seed ingredients, long fermentation & then aged a minimum of 10 years in Missouri Oak

CERTIFIED

Stowloch Whiskey is certified under Missouri law as an "Ozark Highlands" whiskey. This quality standard requires chemical free water from the Ozark Highlands, Missouri-made barrels, & aging of at least 4 years. And the process from birth to bottle must take place in the Ozark Highlands.

SMOOTH & SWEET

The mash build and long fermentation gives Stowloch Whiskey an incredibly smooth finish even at barrel proof. This pre-prohibition recipe uses traditional distilling to ensure each bottle is truly delicious.

SIZE - 750 ML

BTL/CASE - 12
