

# WE ARE NOW USING AN AMBIENT AI SCRIBE TOOL IN OUR CLINIC

Our Ambient AI tool listens in the background during your visit to help us capture important details, allowing us to focus more on you and less on the computer.

Here's what you need to know:

Privacy & Security: Your information is safe. We follow strict privacy guidelines in Ontario (PHIPA) to protect your personal health information.

Purpose: This tool helps create more accurate records of your visit, enabling us to spend more time with you.

Control: You have a choice. If you have any concerns or prefer not to have this technology in use during your appointment, just let us know.

## Thank you for trusting us with your care!
